

2019 IEEE INTERNATIONAL WORKSHOP ON Metrology for Industry 4.0 and IoT

NAPLES, ITALY | JUNE 4 - 6, 2019

CALL FOR DEMONSTRATIONS

The IEEE MetroInd4.0&IoT 2019 Workshop will have "Live Demonstration" track to allow an interactive and tangible form of presentation, which is quite different from the oral and poster sessions. The demonstrations will be conducted in presentation booths and ample space will be provided to set up a working system, may it be interactive software on a laptop or a hardware setup. Conference delegates are invited to experience the demonstrations directly, to interact with, play with, and challenge them. Presenters will have the opportunity to show direct proof of their working systems and to create a lasting impression. Prospective demonstrations could be either be related to the work that has already been published or the one going to be published during the IEEE MetroInd4.0&IoT 2019 Workshop.

DEMO GUIDELINES

Proposals of live demonstrations should submit a one-page description of the demonstration, using the same page formatting as for regular IEEE MetroInd4.0&IoT papers. In case of demonstration based on already published work, the paper must include a reference to at least one earlier publication.

In addition, there will be a "Best Demonstration Contest" to recognize the top live demonstration and encourage the participation in the demonstration session. The contest winner will receive the "Best Demonstration Award" of IEEE MetroInd&IoT 2019.

January 10, 2019
Special Session Proposal

February 10, 2019
Abstract Submission Deadline

March 10, 2019
Notification of acceptance

May 10, 2019
Full Paper Submission Deadline

NAPLES

Naples is located halfway between two volcanic areas, the volcano Mount Vesuvius and the Phlegraean Fields. The city is noted for its rich history, art, culture and gastronomy and, in the modern day, the historic centre of the city is listed by UNESCO as a World Heritage Site.
